

NANOROOF™ Care-Plan Warranty Extension

Annual maintenance on your newly installed roof-life system provides additional protection. An out-of-sight-out-of-mind approach is not effective in every case when it comes to your roof. The **NANOROOF™** Care-Plan Warranty Extension is an extensive 10+ point maintenance inspection conducted annually by your **NANOROOF™** Authorized Dealer.

Protect What Matters Most

Your roof protects more than just a building—it protects your home, your family, your business, and everything inside. A simple issue like a clogged gutter or a loose shingle can lead to serious damage. For businesses, that could mean costly downtime, and for homeowners, it could mean expensive repairs. By participating in the **NANOROOF™** Care-Plan Warranty Extension, you safeguard your investment and ensure your roof is always in top condition.

Prevent Problems Before They Start

Roofing experts agree that nearly half of all roof failures result from neglect and poor maintenance. With a solid maintenance plan, you can prevent small issues from turning into costly repairs, ultimately saving you money while extending the life of your roof—whether it's your home or your business.

Risk Free Roof Monitoring

Whether you own a home or manage a commercial property, the **NANOROOF™** Care-Plan Warranty Extension offers you peace of mind with added protection and hassle-free maintenance. And the best part? Even if you miss an inspection or change your mind, your original **NANOROOF™** warranty remains intact.

10+ Point Inspection

Our certified applicators will thoroughly inspect your roof, from its overall condition to every flashing detail, ensuring nothing is left to chance. While 1-2 inspections a year are recommended, the **NANOROOF™** Roof-Care Warranty Extension requires at least one inspection every 2 years to keep your roof in optimal shape.

Affordable Coverage For Your Roof

Participation in the **NANOROOF™** Care-Plan Warranty Extension automatically extends your existing warranty at no extra cost. Available for all newly installed **NANOROOF™** systems and for systems already covered by a **NANOROOF™** warranty, this plan ensures your roof gets the attention it needs for years to come.

The **NANOROOF™** Care-Plan Warranty Extension extends a...

10-year warranty to **12 years.** →

15-year warranty to **18 years.** →

20-year warranty to **25 years.** →
